

# TIMS FORD LAKE AREA

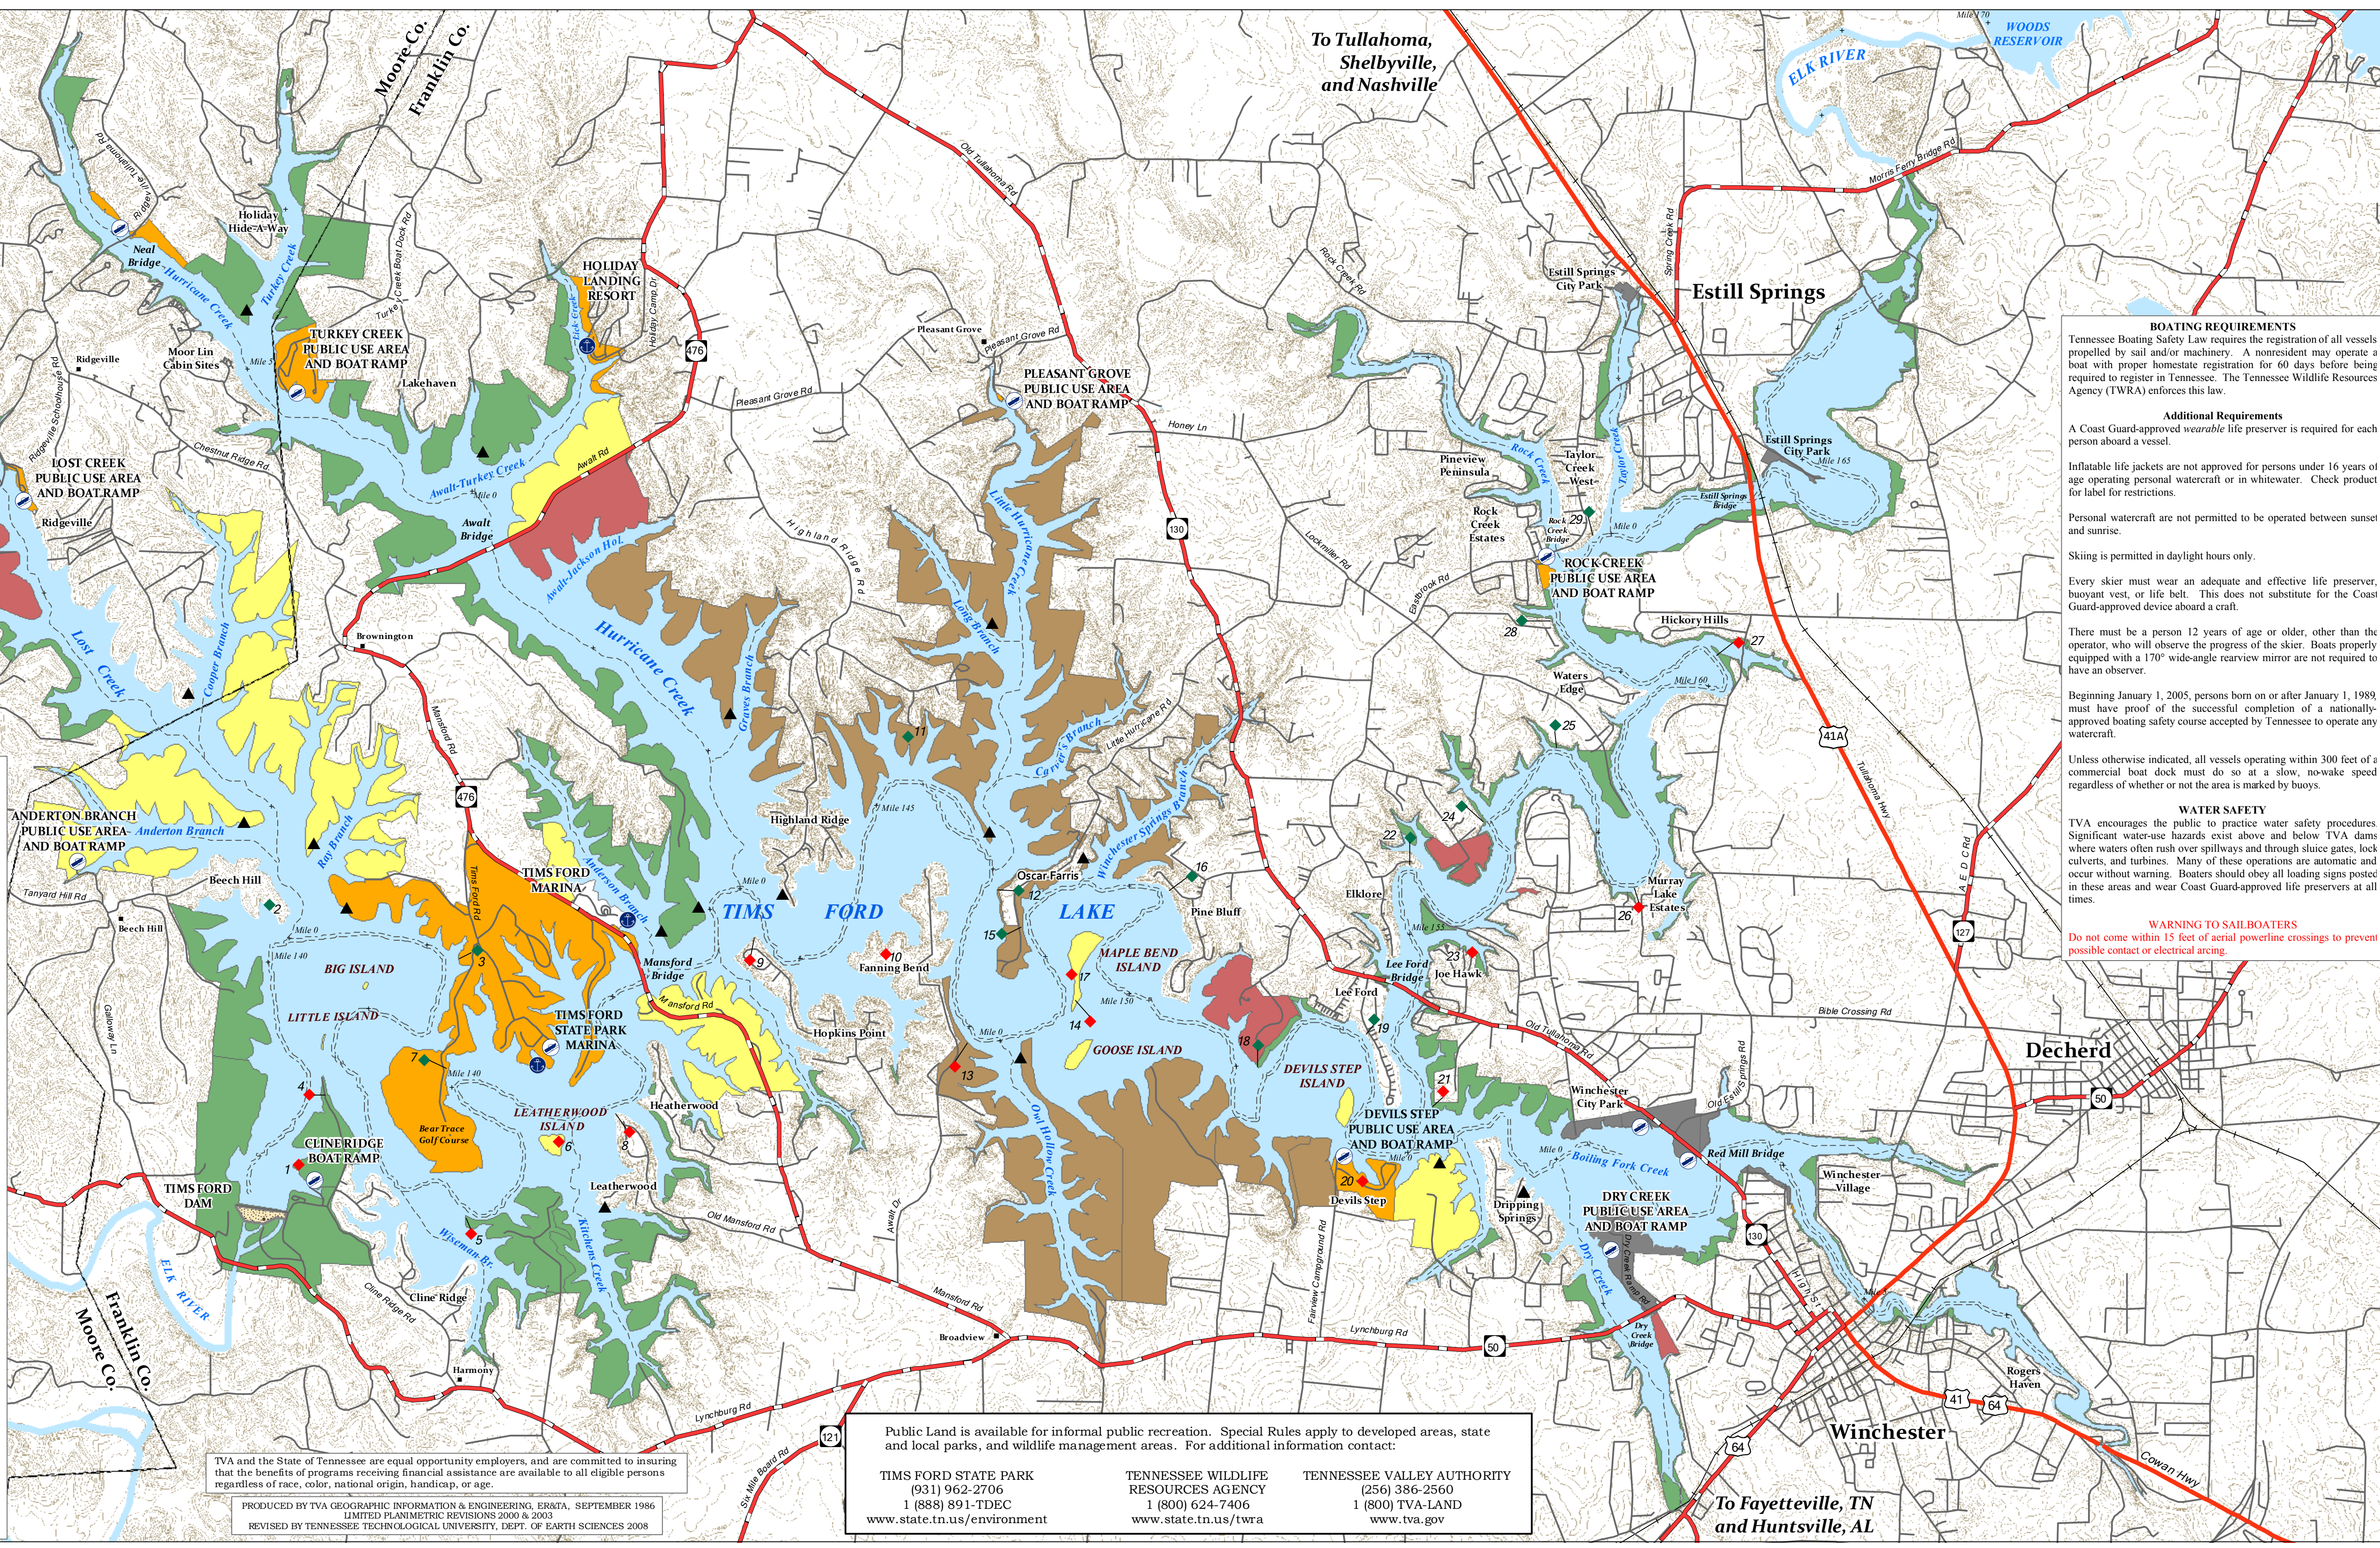

Scale of Miles

## LEGEND

- Non-Huntible State Park Land.....
- Huntible State Park Land.....
- Owl Hollow Mill WMA.....
- Tennessee Valley Authority Land.....
- TDEC.....
- City Park Managed by Municipality.....
- Reservoir.....
- Dayboards.....
- Left Bank Daymarks.....
- Right Bank Daymarks.....
- US Highways.....
- State and County Highways.....
- Local Roads.....
- River Mile..... Mile +140
- River Channel.....
- Contour lines.....
- Boat Ramps.....
- Marinas.....

Topography, shown in brown form U.S. Geological Survey 7 1/2 -minute quadrangles, has not been adjusted to agree with shoreline obtained from more current sources. Contour interval is 10 feet.

\* Sailing lines or ranges may be followed between daymarks at or near full pool stages.

TVA and the State of Tennessee are equal opportunity employers, and are committed to insuring that the benefits of programs receiving financial assistance are available to all eligible persons regardless of race, color, national origin, handicap, or age.

PRODUCED BY TVA GEOGRAPHIC INFORMATION & ENGINEERING, ERATA, SEPTEMBER 1986  
LIMITED PLANIMETRIC REVISIONS 2000 & 2003  
REVISED BY TENNESSEE TECHNOLOGICAL UNIVERSITY, DEPT. OF EARTH SCIENCES 2008

Public Land is available for informal public recreation. Special Rules apply to developed areas, state and local parks, and wildlife management areas. For additional information contact:

### BOATING REQUIREMENTS

Tennessee Boating Safety Law requires the registration of all vessels propelled by sail and/or machinery. A nonresident may operate a boat with proper homestate registration for 60 days before being required to register in Tennessee. The Tennessee Wildlife Resources Agency (TWRA) enforces this law.

#### Additional Requirements

A Coast Guard-approved *wearable* life preserver is required for each person aboard a vessel.

Inflatable life jackets are not approved for persons under 16 years of age operating personal watercraft or in whitewater. Check product for label for restrictions.

Personal watercraft are not permitted to be operated between sunset and sunrise.

Skiing is permitted in daylight hours only.

Every skier must wear an adequate and effective life preserver, buoyant vest, or life belt. This does not substitute for the Coast Guard-approved device aboard a craft.

There must be a person 12 years of age or older, other than the operator, who will observe the progress of the skier. Boats properly equipped with a 170° wide-angle rearview mirror are not required to have an observer.

Beginning January 1, 2005, persons born on or after January 1, 1989, must have proof of the successful completion of a nationally-approved boating safety course accepted by Tennessee to operate any watercraft.

Unless otherwise indicated, all vessels operating within 300 feet of a commercial boat dock must do so at a slow, no-wake speed regardless of whether or not the area is marked by buoys.

### WATER SAFETY

TVA encourages the public to practice water safety procedures. Significant water-use hazards exist above and below TVA dams where waters often rush over spillways and through sluice gates, lock culverts, and turbines. Many of these operations are automatic and occur without warning. Boaters should obey all loading signs posted in these areas and wear Coast Guard-approved life preservers at all times.

### WARNING TO SAILBOATERS

Do not come within 15 feet of aerial powerline crossings to prevent possible contact or electrical arcing.
